

## 3- to 5- Half-Day Lego Engineering Camp (for ages 3-4.5)

This Lego engineering and story starter camp introduces our youngest participants to a range of basic Lego building and engineering concepts. Children will also learn creative story telling techniques using a fun software.

Lego Duplo is used as the main learning tool in this camp for the smaller hands of our participants, while we guide and encourage them to develop confidence and independence in completing the projects by themselves.

If time permits, our little campers will also be encouraged to take on different building challenges, and arts and craft activities.

WEEKS	DATES & TIME	LOCATION	AGES	PRICE
